FARRIER PRODUCT DISTRIBUTION

Who We Are

FPD has always chosen to represent the best of the brands available in the farrier industry. As the exclusive distributor of products from Kerckhaert's House of Brands, FPD has grown to be the largest wholesale distributor of farrier products in the US and Canada. Kerckhaert's innovation and attention to quality has been integral to our growth and success. When choosing the brands we distribute, we insist the products are designed with the professional farrier in mind; providing the best choices across all disciplines. Quality, dependability and availability are the hallmarks of all brands we represent. Kerckhaert's House of Brands, including Kerckhaert Horseshoes, Liberty Nails, Diamond, Hoofjack and Vettec – along with FootPro, Plexus, Bellota and Bloom Forge - have long been premier Brands FPD distributes in North America.

FPD continues to reach out to farriers to determine what works for them – and what doesn't. We provide multiple opportunities for farriers to connect and communicate with FPD on various social media platforms, including Facebook, Instagram and YouTube. Top farriers and clinicians in the industry are spending time at the FootPro Workshop, sharing techniques and wisdom for farriers interested in expanding their own knowledge and skill. The team at FPD is always on the road, sponsoring and attending farrier clinics and educational opportunities; ensuring the professional farrier has the support needed to grow and flourish in their business.

More information about FPD and their product lines can be found at farrierproducts.com.

BUILDING BLOCKS OF SUCCESS

BY ROYAL KERCKHAERT

Our Key Brands

FPD is proud to be the exclusive distributor in US and Canada of the Kerckhaert House of Brands. Designed with the professional farrier in mind, the House of Brands offers the best choices across all disciplines.

Kerckhaert

The world's largest independent manufacturer of horse shoes. Steel and aluminum riding horse shoes, aluminum racing plates, draft, pony and other styles.

Liberty

Engineered by Kerckhaert to meet the demand for a high quality nail. City, Race, Regular, Slim, E-Head, Hybrid, LX, Lite and Carrera styles available in Steel and Cu Copper Coating.

Diamond

A division of Kerckhaert Horseshoe Factory featuring quality horseshoes, hoofcare and tools for farriers.

Vettec

Vettec's extensive line of hoof related materials allow the hoof care professional to complete hoof repairs and glue on shoes with the highest level of quality.

Hoofjack

Whether it is the horse owner, trimmer, farrier or veterinarian, Hoofjack offers an easier way to support the horse's hoof. Hoofjack is producing a growing line of accessories.

We Also Distribute These Fine Brands

Quality, dependability and availability are the hallmarks of FPD and all the brands it represents.

FootPro

The broadest line of finished bar shoes in the market, including clipped and unclipped styles with city and E-head punching. The product line also includes shoeing tools, aprons, hoof knives, hammers, sharpeners and other useful accessories and a growing line of quality Hoofcare products.

Plexus

Plexus pads are available exclusively at FPD Dealers. Made in the U.S., Austin Edens' Plexus Pads feature a patent pending, common sense design.

Bloom Forge

The best line of forging tools in North America. Knives, tongs, hammers, forepunches, pritchels and clinching tools.

Bellota

The best performing rasps and files in the industry.

SX-Series

Since the 1990's, North America's broadest and most popular series of front and hind shoes; with options to shoe most riding horse breeds and disciplines.

SX-7

- Quarter Horses and Light Breeds
- 1/4" x 3/4"
- Front and hind patterns
- Clipped and unclipped options

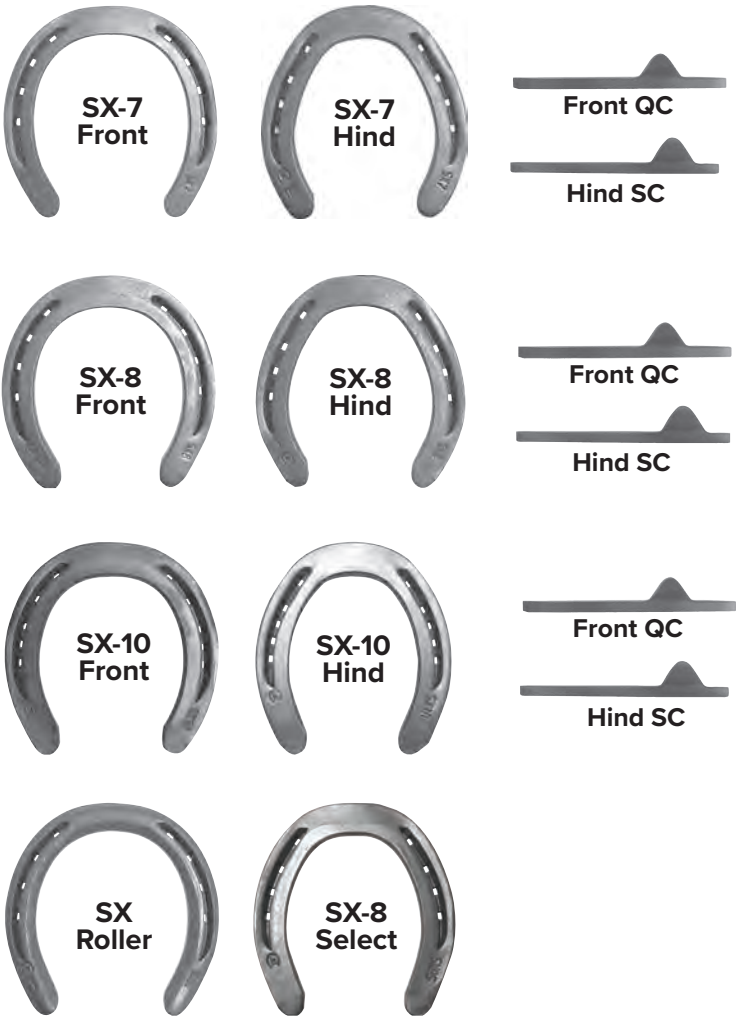
SX-8

- Multi purpose shoe for all breeds in Show Disciplines, Ranch & Trail
- 5/16"x3/4"
- Front and hind patterns
- Clipped and unclipped options
- Includes shape options: SX Select Hind and SX Roller (half-round) Front

SX-10

- Multi purpose shoe for all breeds and disciplines that require a stronger shoe and steel section
- 3/8"x7/8"
- Front and hind patterns
- Clipped and unclipped options

KERCKHAERT SX SERIES SHOE STYLES



FIND SPECIFICATIONS AND VIDEOS OF THE SX SERIES IN ACTION AT **FARRIERPRODUCTS.COM/SX**

Standard Series

The Kerckhaert Standard series are one-shape pattern shoes. With unbeatable quality, they are popular with farriers who prefer to shape their own fronts and hinds.

Standard

- One shape pattern
- 5/16" thickness
- Full toe, inside bevel, sole relief and slight taper to heel area

Lite

- One shape pattern
- 1/4" thickness
- Lighter 18x7 steel size
- Same features as the Standard
- The bevels on the inside and outside offer good breakover, as well as excellent grip in arena surfaces, trails and cross-country terrain

Extra

- One shape pattern
- 5/16" thickness
- Wide-web pattern designed to give protection and support, especially in rough terrain
- Bevel on the ground side, sole relief and slight taper to heel area

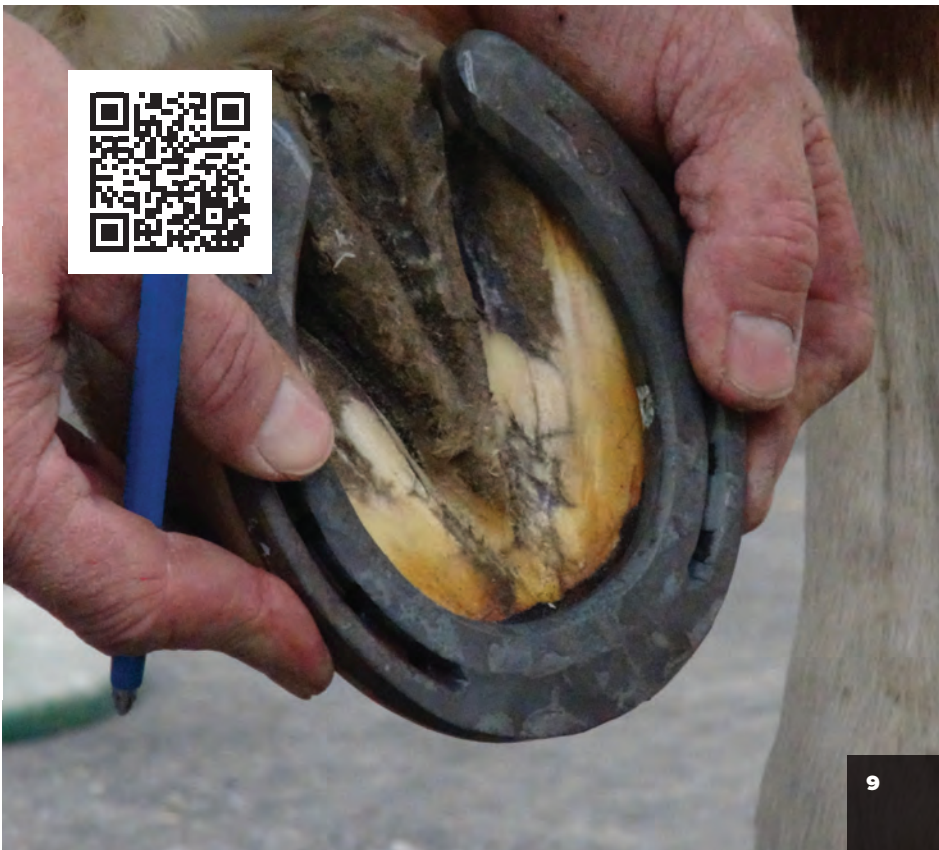
NEW!

Dura Max

- 3/8" Generic Pattern Shoe
- Combination of the popular Dura Plain and Standard Max
- Punched for Combo Slim nails

KERCKHAERT STANDARD SERIES SHOE STYLES

FIND SPECIFICATIONS AND VIDEOS OF THE STANDARD SERIES IN ACTION AT **FARRIERPRODUCTS.COM/STANDARD**



Prime Fit

The ultimate keg shoe for the North American market. This drop forged shoe offers a competitively priced option for pleasure, trail and ranch horses. Its easy-to-fit front and hind shapes will minimize fitting time. Full 5/16” thick stock has a V-Crease; accommodating a range of American style nails, including Combo Slim, Slim and City.

PRIME FIT

- 5/16" thickness
- Front and hind patterns
- Unclipped only
- Excellent heel support
- Sole relief
- V-Crease for best nail fit
- Center mark helps with fitting and nailing

FIND SPECIFICATIONS AND VIDEOS OF THIS SHOE IN ACTION AT **FARRIERPRODUCTS.COM/PRIME**

Pride Series

The Pride series has become the most popular choice in the market for western horses involved in reining, roping and other disciplines involving the need for some “slide” in their stops. Excellent steel quality, good punching patterns and shapes make shoeing much more efficient.

Sliding Plates

- 1/4" x 7/8": 8 nail hole pattern
- 1/4" x 1": Good all around choice. Made with higher carbon steel for better wear and has a slight taper to 7/8" in heel. 6 nail-hole pattern
- 1/4" x 1-1/4": slightly wider version. Tapered to 7/8" in heel. 6 nail hole pattern
- Hind only pattern
- Unclipped

Pride Fine Sliding Plates

- 1/4" x 1"
- Hind pattern only
- Unclipped
- Finer punch pattern
- Slight taper in heel
- Pattern works best for a shoe fit that is very close to a perimeter fit, where the shoe is not set forward
- 8 nail hole pattern

Pride 1/4" x 3/4"

- Flat shoe
- Front and hind patterns
- No crease

FIND SPECIFICATIONS AND VIDEOS OF THE PRIDE SERIES IN ACTION AT **FARRIERPRODUCTS.COM/PRIDE**

Steel Triumph Series

The Triumph series has been popular for many years for good reason. The steel Triumph and Lite Triumph provide extra traction for event, trail and working ranch horses. The new Trek offers another good option with the generic shape that can easily be shaped to front or hind. The Lite Triumph is especially nice on horses with smaller feet working in controlled footing.

STEEL TRIUMPH

- 3/8” thickness
- Front and hind patterns
- Clipped and unclipped options

STEEL TRIUMPH LITE

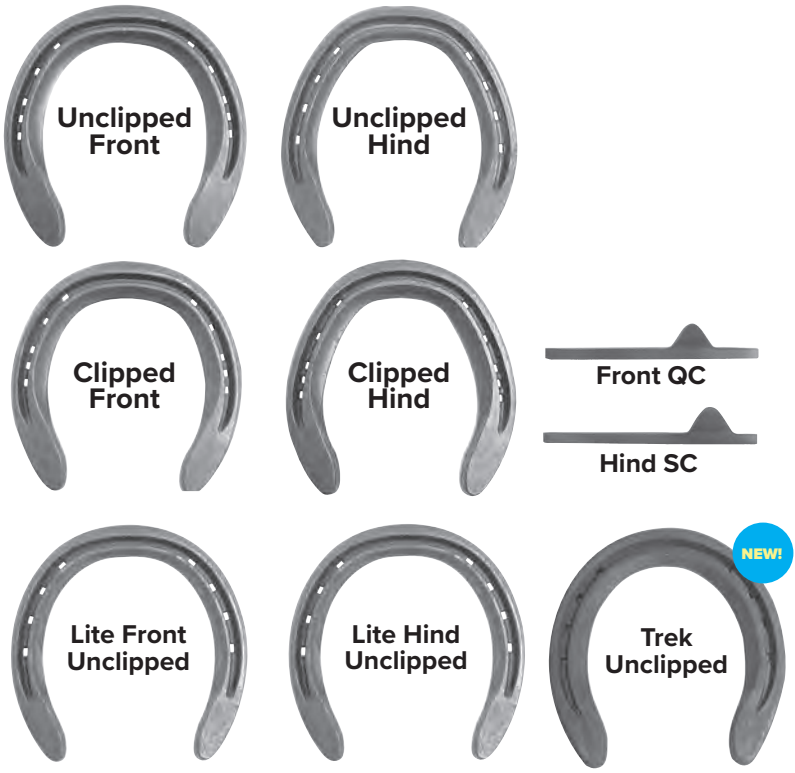
- 5/16" thickness
- Front only pattern
- Unclipped only

NEW!

TREK

- 3/8" thickness
- One shape pattern
- Unclipped only
- Bevel design maintains shoe mechanics and increases wear
- Increased crease length
- Deeper V-crease
- Increased width of outer and inner rims
- Center mark helps with fitting and nailing

KERCKHAERT STEEL TRIUMPH SERIES STYLES



FIND SPECIFICATIONS AND VIDEOS OF THESE SHOES IN ACTION AT **FARRIERPRODUCTS.COM/TRIUMPHTREK**

DF Series

The broadest selection of features, different web sizes, clip positions and nail hole sizing. All DF shoes are punched for E-Head nails.

Quarter Clipped

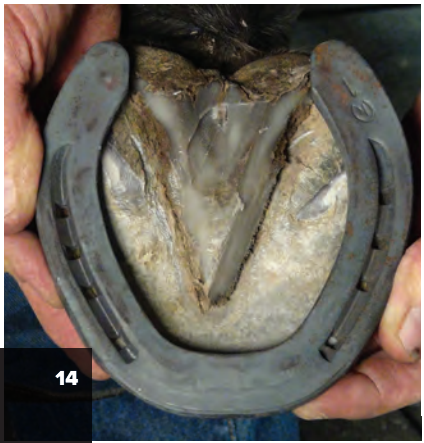
- 8mm front only pattern
- 10mm front only pattern
- Quarter clipped
- Popular in the Jumper circuit

Select

- 8mm hind only pattern
- 10mm hind only pattern
- Side clipped
- Excellent choice for the hunter jumper market
- Heels are elongated and tapered
- Widest part of the shoe is moved forward, allowing an extended heel fit

Quarter Motion & Plus

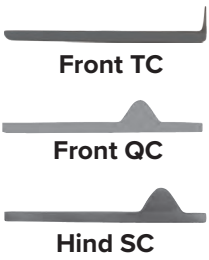
- 8mm front only pattern
- Quarter clipped
- Designed with a beveled toe on the ground surface which allows the hoof and limb to breakover with less stress, strain and more comfortable lateral movement
- Quarter Motion Plus has a wider toe and heel design



Grand Prix

- 8mm hind only pattern
- Side clipped
- Specifically designed for the hunter jumper market
- Wider outside branch gives additional support in the heel area

KERCKHAERT DF SERIES STYLES



FIND SPECIFICATIONS AND VIDEOS OF THE DF SERIES IN ACTION AT **FARRIERPRODUCTS.COM/DF**

Meister Series

The Meister shoe is wider in the toe and heel area, where the foot needs more support, the branches are narrower, so that they are more easily modified. The Meister Motion features a beveled toe on the ground surface, allowing the hoof and limb to breakover with less stress and strain. The bevel continues around the branches of the shoes for more comfortable lateral movement.

Classic Roller

While a half round style, this shoe has more ground surface than a true half round. The Classic Roller is available in quarter clipped or toe clipped front, and side clipped hind.

KERCKHAERT CLASSIC ROLLER SHOE STYLES

FIND SPECIFICATIONS AND VIDEOS OF THE CLASSIC ROLLER IN ACTION AT **FARRIERPRODUCTS.COM/CLASSICROLLER**

Other Popular Steel Styles

Draft

- Strong toe clips on both front and hind patterns
- Shapes correspond to the natural shape of the draft horse
- 10mm and 12mm thickness
- Front and hind patterns
- Unclipped and Toe Clipped

Concave

- Wide selection of shoes with radius clips
- 10mm and 11mm thickness
- Front and Hind patterns
- Quarter and toe clipped fronts
- Side clipped hinds

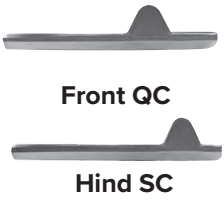
SSP

- Original unclipped style sold in the US, popular with the hunter and jumper circuit
- Available in a broad choice of steel sizes
- 8mm and 10mm thickness
- Front only pattern
- Unclipped

Aluminum Century Series

The Aluminum Century unclipped is built for smaller feet that require a narrower shape, with less width in the toe. The Aluminum Century Clipped is thicker than the Triumph series and provides excellent support in the heel area.

KERCKHAERT ALUMINUM CENTURY SHOE STYLES



FIND SPECIFICATIONS AND VIDEOS OF THE CENTURY SERIES IN ACTION AT **FARRIERPRODUCTS.COM/CENTURY**

Triumph Aluminum Series

This drop forged, aluminum shoe is commonly used by the Western Pleasure market, as well as the Hunter and Thoroughbred. Shape and width of stock provide excellent support. The Triumph Aluminum Clipped is popular in the Hunter market due to its broad toe shape and strong clips.

Liberty Nails

Race
Used most often on Thoroughbred, Quarter Horse or Standardbred race horses that wear light steel or aluminum shoes.

City
The blades are slightly larger in dimension to provide more strength and durability. Most of the American style shoes in the market are punched for 5 City and 5 Slim.

Slim
Slim blade nails are used primarily for riding horses. The slimmer blade is preferred by many farriers because it displaces less hoof and reduces damage to the wall.

Hybrid
The Liberty hybrid head design works well in concave and shoes punched for E-head nails. The extra length and pitch provide a perfect combination for use with pads.

LX
The LX style nails are a hybrid head design that is similar to the E head but is more rectangular. Often used in rim or concave style shoes but they are used in European style flat shoes as well.

Combo and Combo Slim
Combo nails are a modification of the City or Slim nail. The heads are slightly larger but yet the shank is still similar to the City or Slim. They are often used for resetting when nail holes have enlarged or with shoes that have a wide crease.

Combo Slim HardTop
Combo Slim style with a special hardening process on the top of the head; providing additional wear and strength.

NEW!

FIND SPECIFICATIONS AND VIDEOS OF LIBERTY NAILS IN ACTION AT **FARRIERPRODUCTS.COM/LIBERTY**

E-Slim

These European style nails fit well in shoes like the Kerckhaert DF and SSP series that were made first for the European market. Used most often in the Hunter and Jumper discipline.

E-Head

The E-head nail has more strength because the shank comes out of the center of the head, with slightly more mass. Used most often in the Hunter and Jumper discipline.

Regular

Regular head nails have a larger head than the City styles. The shank of the nail is also proportionately larger than City styles. They are used for resets but are also used for horses that are working on difficult terrain or have traction devices that create more stress on the nails.

Lite

A popular nail for farriers shoeing the Saddlebred, Morgan and other gaited breeds and draft horses.

Carrera

Slight extra neck fits more securely in the punching, a slim shank and only a minimal amount of head above the shoe surface. Three sizes available: Small (4), Medium (4.5) and Long (5).

Secure HardTop

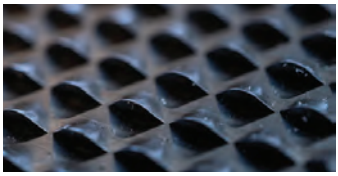
NEW!

These nails are an E head style, with a special hardening process on the top of the head; providing additional wear and strength.

Diamond Tools

Diamond Max Glide Rasp

NEW!



- Unique production process for long-term sharpness
- 10% wider than standard rasp, levels the hoof with ease and efficiency
- File side designed with Chip Breaker (shown right middle)
- Aggressive rasp side (9 teeth/row) prevents clogging (shown right bottom)

Hoof Nippers

- Professional quality nippers, precision manufactured from special alloy steel
- Available in 12", 14" and 15" models
- 12" nipper is used for race horses, smaller horses and foals
- 15" nipper offers maximum leverage and cutting ability

Nail Cutters

- Available in a 8" and 10" model
- Induction hardened cutting edges
- Semi-rounded face and wide throat for close, precision cuts
- Economical, high-performance tool
- KX Nail cutter (pictured) is 12" in length and has an elliptical formed joint for easy one-handed or two-handed operation

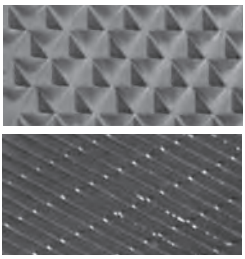
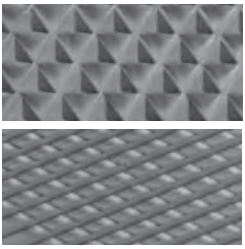
Bellota Rasps

BELLOTA
HARD WORK INSPIRED



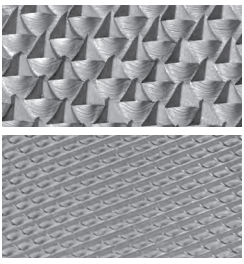
Prime Level

The Prime Level complements the Top Level rasp, 12% wider and 10% thinner than regular rasps, for perfect leveling balance and control. Features Chip Breaker style file side for smoothest finish.



Top Level & Top Level Long

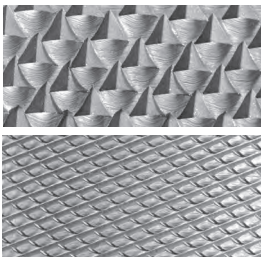
The Bellota Top Level is 12% wider and 10% thinner than regular rasps, for perfect leveling balance and control. The 8 tooth rasp side pattern has an aggressive cut and an intermediate file side, similar to the Top Sharp. Top Level Long is 17" in length.



Top Sharp

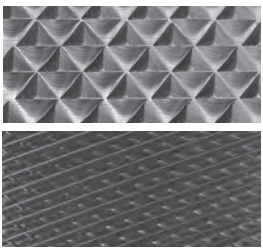
The Bellota Top Sharp is the top selling style in the Bellota line. Exceptional cutting performance on the rasp side and an intermediate design on the file side cut make this a great performer. Second cut file.

FIND SPECIFICATIONS AND VIDEOS
OF BELLOTA RASPS IN ACTION AT
FARRIERPRODUCTS.COM/BELLOTA



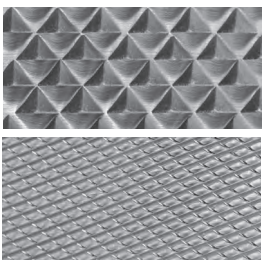
CLASSIC

The Bellota CLASSIC Rasp is the original design. With a proven rasp side cut and the smooth cut of the classic file side, this rasp is the best choice for a good hoofwall finish.



RAZOR+

The rasp side of the Bellota RAZOR+ offers a most aggressive cut, with a larger tooth design when compared to other Bellota rasps. In addition, special steel characteristics combined for the longest durability.



Raptor+ and BIG Raptor+

The Bellota Raptor+ Rasp is 33% wider than regular rasps, ideal for large hooves. Special steel characteristics combined for the longest durability. BIG Raptor+ is 17" in length.

Baldor Grinders & Attachments

Baldor 1/2 hp Grinder

- Sold with no attachments allowing you to add the attachments that will work best for you (shown with 10" and 6" Expander wheels)
- Expander wheels (6" and 10") mount with no adapters necessary
- Shaft is 5/8", approximately 2-1/2" long
- 3600 rpm, 120V
- Made in USA

Baldor 1/4hp Grinder

- 1/2" shafts, extended by 1" on each end to make it easier to keep knives away from the housing (shown with Sharpening Wheel and Felt Wheel)
- 1800 rpm, 120v
- Made in USA
- Painted red, to avoid confusing it with the 1/2hp grinder

Zirconia Belts

- Mid range price, high level performance
- 24, 40, 100 and 120 grit options

Cubitron Belts

- Cut faster and cooler
- Outlasts conventional Zirconia and Ceramic belts
- 36 grit

RazorStar Belts

NEW!

- 10" Expander Wheel, 2"x36" and 2"x48"
- 36 grit

Ceramic Belts

- Excellent life and performance
- Out-performs Zirconia in most hard to grind, tight tolerance finish requirements

FootPro Shop Accessories

- Expander Wheels & Guards
- Blending Wheel
- Grooved Felt Wheel
- Buff/Sharpening Wheel

Pour-In Hoof Care

Vettec Equi-Pak

- Liquid urethane that sets in 30 seconds
- Used as a pour-in pad to provide comfort, protection and therapeutic support
- Bonds directly to the sole and frog and can be used by itself as an instant pad, or as a packing underneath a pad
- Limits exfoliation, promotes sole depth and makes the bottom of the hoof impervious to injury from sharp objects

Vettec Equi-Pak Soft

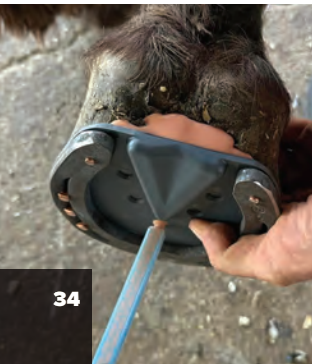
- All the features of Vettec Equi-Pak, but sets in 40 seconds
- Noticeably softer than Equi-Pak

Vettec Equi-Pak CS

- Copper sulfate infused liquid urethane that sets in 60 seconds
- Used as a pour-in pad to provide comfort, protection and therapeutic support for equine feet
- Bonds directly to the sole and frog and can be used by itself as an instant pad, or as a packing underneath a pad
- Limits exfoliation, promotes sole depth and makes the bottom of the hoof impervious to injury from sharp objects

Vettec Sil-Pak

- Non-bonding, skin-safe silicone packing material, weight bearing in 2 minutes
- Dispensed under a pad to seal, protect and cushion the equine foot
- Totally fills and seals all void areas and prevents debris migration



Vettec Sil-Pak Soft

- All the features of Sil-Pak but with a shore hardness of 15 (Sil-Pak is approximately 35)

Adhesives and Repair

Vettec Adhere

- Multipurpose, fast-setting urethane adhesive designed to bond steel, aluminum and urethane shoes to the hoof and to fabricate large and small hoof wall repairs
- Sets in 60 seconds, is weight bearing after 3.5 minutes and is fully cured in 6 minutes
- Maintains the flexibility necessary at the quarters and heels to allow the natural movement of the hoof
- Black color dresses to gray

Vettec SuperFast

- Fast setting, highly durable urethane formula that is ideal for making custom shoes directly on the hoof, as well as medial, lateral and toe extensions on foals
- Sets in 30 seconds and is weight bearing in 2.5 minutes
- Custom shoes made from Super Fast, when properly applied, should last 5 to 6 weeks or longer
- Can also be used to repair hoof wall defects, externally modify shoes and glue –on wood and urethane clogs

Vettec Sole-Guard

- Black liquid urethane that can be used in a variety of applications to produce an extremely durable pad on shod and unshod equine feet
- Sets in 30 seconds
- Bonds to the sole and frog and can be used as a thin protective pad, or a thicker, supportive pad

Plexus Hoofcare

Made in the U.S., Austin Edens' Plexus Pads feature a patent pending, common sense design. The shape and design of the pads allow for easy fit on front or hind for more hoof sizes; reducing the need for more inventory. High quality injection molded material allows for resets. Available in Flat and Degree.

FIND SPECIFICATIONS AND VIDEOS OF PLEXUS PRODUCTS IN ACTION AT **FARRIERPRODUCTS.COM/PLEXUS**

Open Toe Caudal Support Pads

- Frog plate is tapered for heel fit, reducing the need for trimming or grinding pads or heels of shoes
- Open toe design minimizes trapping of foreign materials in the front half of the foot

Full Support Pads

- A hybrid design, size S-M, to minimize the number of sizes you need to carry; easily fits shoe sizes 00 through 3

Plexus CS Gel

- Copper sulfate and vinegar ratio makes an effective treatment and preventative for white line and other bacterial/fungal issues in the horse's foot
- Gel formula flows easily yet coats and penetrates treated area effectively

FootPro Soft DIM20 and Firm DIM40

- Non-toxic, non-allergenic formula that does not adversely affect structures of the hoof, not affected by moisture
- Easy to mix two equal parts by hand

FootPro Cast 2" and 3"

- Dry application technique provides greater working time and control
- Resin impregnated fiberglass mesh fabric conforms to the hoof, provides support, wear protection and stabilizes the whole hoof

FARRIER PRODUCT DISTRIBUTION

Professional Farriers Demand THE BEST

FPD DOES TOO

"Thank you for all you do to support us farriers. FPD, Inc. has gone above and beyond to help my business run smoothly and also inspire the young bloods that are interested in the industry."
- Mike Talbot
